Dear Reader,

I am very excited that we could visit Westerford High School during this past month as part of our new civic education programme – “Taking the Constitution to the People”. This is a wonderful initiative aimed at stimulating greater awareness of Constitutional values among young people. It is central to the objectives of the Inclusive Society Institute (ISI).

The ISI was also involved in several other activities during this period. We participated in workshops on reframing migration narratives, and the upcoming Income and Expenditure Survey (IES) by Statistics South Africa. Among other things, we were also involved in meetings with the UN Protection Working Group and the Istanbul Security Forum (ISF) Advisory Board.

In addition, we also released three publications during the past month, covering topics from the South African Welfare State to reform of the United Nations Security Council.

You can read all about this and more in this latest edition of our newsletter. Please, do not hesitate to let us have any feedback.

Regards,

*Daryl Swanepoel*
